The problem

Most applicants treat the medical or dental school application as a series of separate hurdles and try to solve each one independently. This creates a fragmented approach where the pieces never add up, and families are left overwhelmed and unsure whether they are on the right track.

The solution

The Predictable Offer Protocol takes a fundamentally different approach. A dedicated coach who knows your complete profile coordinates every element of your application as one interconnected system. Every decision is made with the full picture in mind.

What you get

A 12-module interconnected system, with one dedicated coach

Delivered through 1:1 coaching, live group workshops, online strategy modules, comprehensive question banks, in-person mock interview days, and a WhatsApp group with Dr Ash and the coaching team.

Application diagnostic: A full profile assessment that strips away blindspots and produces your strategic roadmap.

Specialist track: Tailored for international, graduate, and re-applicant routes. Your coach has lived your path.

UCATalyst method: UCAT exam preparation: a six-step method that builds your score in context of your university targets.

GAMSAT edge: Graduate exam preparation that turns the GAMSAT from obstacle into strategic advantage.

Experience lens: Work experience strategy across four pillars, with structured reflection that feeds every other module.

Impact statement: Personal statement built over months through a Reflection Bank. Shapes the interview before you walk in.

University selection clinic: Data-driven UCAS choices backed by freedom of information data.

Think like a doctor: Interview preparation that builds on every module before it. Not rehearsal; the result of everything that came before.

Finger on the pulse: Medical ethics and hot topics built over months, not crammed in a fortnight. Feeds UCAT, personal statement and interview performance.

Performance edge: Research-backed study skills: intensity over volume, systems over willpower. The protocol's operating system.

Post-POP: Beyond the application: clearing support, offer-holder guidance, and the guarantee if you need it.

Dedicated coach: Matched to your route, learning style, and personality. One person who sees the full picture.

Getting started

We have a programme for everyone. Our programmes range from £50 a month up to £4,800 for the full Predictable Offer Protocol, depending on your needs and budget. Payment plans available.

Apply today at future-doc.com

Backed by two guarantees
